# Table of Contents

## TRACK A: A RE-LOOK AT REENGINEERING

*Demystifying Business Process Reengineering*
Barry Mundt ..... 1

*Reengineering a Government Laboratory Supply and Accountability System***
William Leonard and Dana Wilbanks ..... 17

*Reengineer Business Processes Seriously - Don't Just Reguess Them*
Ben Graham, Jr. ..... 27

*America's Army - Into the 21st Century*
Edward Guthrie ..... 30

*Working Together with Reengineered Business Processes and Digital Data*
Gene Salvadalena and David Bloyer ..... 40

*Business Process Redesign and the Traditional Organization*
Kevin Simonin and Robert Lynch ..... 44

*Successful Reengineering Partners: The U.S. Government & the Marine Industry*
Joseph O'Callahan ..... 49

*Reengineering a Key Business Process: Efficiency v. Bureaucracy*
Gregory Deabler ..... 57

*Organization Design and Reengineering: Concepts, Techniques and Learnings*
David Lester ..... 65

## TRACK B: PRODUCT & PROCESS DESIGN TOOLS

*Process Improvement Tools and Techniques*
Joseph Herr ..... 73

*Kanban Scheduling - Effective, Simple, Demanding*
Quarterman Lee ..... 78

*Cellular Manufacturing*
Quarterman Lee ..... 84

*Tool Rationalization and Planning for Competitive Manufacturing***
T. Perera, R. Tipple, and J. Mosley ..... 96

*Implementation of Process Capability Index Cpm: A Case Study on Quality of Surface Finish***
Al Kattan and Ken Currie ..... 104

*Cost-Effective Utilization of Government Resources in Engineering Projects*
Alberto Garcia-Diaz, Tep Sastri, and Carlos Paz ..... 113

*Tools for Teams Addressing Total Customer Satisfaction*
Bobbi Peck ..... 121

*Modeling a Microbrewing Facility Using Discrete Event Simulation*
Andrew Siprelle ..... 127

*Improved Processes Keep Us in Business - Work Management Process Improvement*
Lynne Trost ..... 133

*Trepanning Process: Approach to Reducing Wear Pad Usage*
Biman Das, James Hennigan and Michael Rolon ..... 137

*Total Quality Management: A Mandate for Process Engineering*
Steven Lowrekovich ..... 146

*WAPAST - The Work and Posture Analysis Sequence Technique*
Walthea Yarbrough-Churn and C. Patrick Koelling ..... 160

## TRACK C: LOGISTICS, TRANSPORTATION, & DISTRIBUTION

*Customer Solution Support for the Year 2000*
Joseph Guerrisi ..... 169

*Opportunities, Advantages, Operations and Services of Third Party Logistics*
Michael Mack ..... 186

*Transportation Modes & Packing Requirements***
Harry Petersen ..... 247

*Life-Cycle Cost Analysis: Technique for Improved Resource Management*
Benjamin Blanchard ..... 256

*The Physical Reorganization of a Spare Parts Warehouse***
Rudi Arts ..... 265

*Obtaining Knowledege by Measuring Warehouse Performance*
Ian Hill ..... 275

*Split Case Order Picking*
W. F. Wilson, Jr. ..... 282

*JIT-Deliveries for a Small Electronics Supplier: A Case Study in Switzerland*
Fabio Frigo-Mosca and Gianni Alberti ..... 293

*Revamping the Manufacturing System: A Multinational Experience*
Ramiro Villeda ..... 299

*Benchmarking: A Tool to Achieve World Class Maintenance*
Borden Coulter ..... 304

*Implementation Strategies for a Computerize Maintenance Management System***
V. Eldon Ralph, Randy Ledbetter, and Colin Benjamin ..... 330

*Improving Material Handling and Dispatching Systems in the Workplace*
Biman Das and Alberto Garcia-Diaz ..... 340

*Development of Fault Diagnosis Expert System for Consumer Electronics Products*
Shigeru Sato, Tsutomu Tsuyama, Kayo Tsunekawa, and Koichi Higano ..... 350

## TRACK D: CUSTOMER SENSITIVE MANUFACTURING

*Team Development: Continuous Process or Program*
Burgess Oliver ..... 355

*Customer Success Through Flexible Manufacturing*
Robert DeBakker ..... 375

*How to Reduce Manufacturing Lead Time with MRP*
Mike Hunter ..... 384

*Competitiveness: Choose It or Lose It*
Ed Heard ..... 387

*Avoiding Common Misconceptions in Implementing Quick Response Manufacturing*
Rajan Suri ..... 393

*Order Processing Lead Time Reduction: A Case Study*
Michael Wayman ..... 400

*Implementing Lean Manufacturing in an Old New England Company*
Frank Giannattasio ..... 410

*The Impact of KAIZEN on Facilities & Engineers*
Ronald Wolka ..... 420

*Development of a Global Manufacturing Strategy*
William Hammer, Jr. ..... 433

## TRACK E: QUALITY & BEYOND

*A Thinking Paradigm for Quality and Beyond Results*
Gerald Nadler ..... 440

*The International Quality Race: Needs and Lessons Learned*
Johnson Edosomwan ..... 446

*A Model of Hope: The Integration of TQM and BPR*
U. Nwabueze, D. Morris, and R. Haigh ..... 450

*Transformations to Quality Organizations: Creation of a Research Initiative*
F. Stan Settles and Pius Egbelu ..... 460

*Multi-Criteria Evaluation for Self Diagnosis of Quality Capability*
Thomas West and Kuei-Jung Huang ..... 467

*A Balanced Scorecard for Industrial Engineering Performance Measurement*
Edward Rogers ..... 476

*The Role of Visible Management Systems in Large-Scale Improvement Efforts*
D. Scott Sink, David Poirier, John Webb, and Altyn Clark ..... 484

*Team Based Management: Continuation in Full Force*
Alice Blake ..... 493

*Groupware for Computer Supported Communication in Quality Teams***
Colin Benjamin, Leslie Monplaisir, and Catherine Riordan ..... 500

*Do Operations Improvement Methods Provide for Organizational Success?*
Kevin Little ..... 510

## TRACK F: SOLUTION-ORIENTED ENTERPRISE NETWORK SYSTEMS

*Solution Oriented Paradigms for Enterprise Network Systems*
Philip Wolfe and Richard Smith ..... 518

*A Client / Server Road Map to Enterprise Business Solutions*
Richard Smith and Philip Wolfe ..... 523

*Manufacturing Execution Systems (MES): The Answer to the Manufacturing Problem*
Richard Belcastro ..... 528

*Client / Server Solution to a Marketing and Production Planning Information System*
Michael Zill and Shelly Selvaraj ..... 536

*An Overview, Evaluation of Worth, and Demonstration of "State of the Market" Enterprise Networking*
Dan Shunk and James Ames ..... 542

*Property Tax Consulting Information System - Developing a Client / Server Solution*
Paul Novotny and Gregory Hunter ..... 554

*An Object Oriented Perspective on Client / Server Systems in the Manufacturing Environment*
Rob Rucker ..... 561

## TRACK G: ERGONOMICS: A CRITICAL TOOL FOR IE'S

*Proactive Ergonomics at Olin-LCAAP: A Key to Success*
William Czeschin ..... 566

*Ergonomics Solutions in Poultry Processing Operations*
Sandra Smithson and Brenda Torres ..... 575

*An Industrial Engineer's View of OSHA's Draft Ergonomics Protection Standard*
Gary Orr and David Alexander ..... 581

*Back Safety: Problems and Solutions*
Lawrence Caldwell ..... 585

*Automation and Other Strategies for OSHA Ergonomics Compliance***
Joseph Davis ..... 592

*Reducing Employee Back Injuries in Skilled Nursing Facilities*
Richard Wyatt, Celia Booth and Rick Poirier ..... 600

*Why Safety in the Workplace is Still an Illusion*
Paul Ray and Phillip Bishop ..... 607

*Applying ABC's to Ergonomics and Safety Costs* **
Philippe Riel and Daniel Imbeau ..... 613

*Operation Performance Measurement with Ergonomic Risk Factors*
Robert Wygant and James Eastman ..... 623

## TRACK H: WORK DESIGN, HUMAN SCIENCES & MEASUREMENT

*Work Design vs Quick Fixitis*
Willard Kern ..... 627

*Design for Manufacturing & Assembly*
Irvin Otis ..... 637

*Crisis in Industrial Engineering Education?*
Lawrence Aft ..... 644

## TRACK I: THE NEW COSTING

*Integrating Manufacturing Operations Simulation and Cost Modeling*
Julie Ehrlich, William Lilegdon, David Martin, Lynn Bivens, and Holly Teig... 650

*Cost Estimating During Conceptual Design*
Pui-Mun Lee ..... 659

## TRACK J: REGULATORY COMPLIANCE

*The Process Safety and Quality Management Connection*
Cecil Gibb ..... 666

*Reducing Waste and Pollution While Reducing Costs - An Industrial Engineering Approach*
Tom Deaver ..... 674

## TRACK K: MANAGEMENT ISSUES & PEOPLE

*Empowerment - A Procedural Answer*
Blair Schlender ..... 680

*Techniques for Supporting Empowerment*
Harold Kurstedt, Jr. ..... 684

*Affinity Groups: An Approach for White Collar Participation*
Kimberly Beaumariage, D. Scott Sink, and Dominic Monetta ..... 692

*Measuring and Improving Employee Empowerment*
Robert Savell and Angelyn McCanless ..... 699

*Productivity and Quality Improvements for an Electronic Manufacturer*
Hideaki Kamata, Takafumi Tamura, and Yoichi Ataka ..... 707

*Quality in Project Management*
Robert Yourzak ..... 715

*A Framework for Management and Human Resource Support Process Design and Implementation*
Daniel Green ..... 723

*Techniques for Improving Engineers' Creativity*
Nancy Mills and Paul McCright ..... 733

*Cultivating Competitive Edge Competencies*
Sondra Ford ..... 741

**TRACK L: STUDENT ISSUES & PROFESSIONAL DEVELOPMENT**

**TRACK M: EMERGING ISSUES**

**** Papers have been refereed.**
